### REAL ESTATE NEWS

#### Low-Priced Property in Demand at Higher Values—Sales of the Day

The real estate market is not as active as it might be, and yet there is a reasonably good inquiry for property. Agents complain of having a good deal of difficulty, much more than ordinarily, in bringing about an agreement between buyer and seller as to value. Owners keep on growing more firm in their demands for higher prices, and the consequence is that offers that would have been good and been accepted three to six months ago are now very generally rejected when submitted. This rule holds good with all real estate property and medium-price residences lots that is, for ground held at \$60 a foot and under, in improved and growing localities of the residential sections. In lower price grounds, where very little, if anything, has been done yet in the way of public improvements, this tendency to higher prices is quite marked. This is owing largely to an immense amount of that class of property having been sold all around the more closely built districts within the past year. So many large plots and acre subdivisions have been bought up with the intent of space of time there is practically nothing left inside the city limits likely to become desirable and marketable within the near future that can be purchased for \$10 a foot, where as a year ago it was possible to acquire for half that amount a year ago. On the other hand remote and out of the way places for which there is no demand at any price, and which used to be quoted as low as \$1 and \$2 a foot, are now scarcely sought after and offers of \$3 a foot have been refused for large parcels of such ground within the past few days. Owners claim that they do not need the money. If they were to sell they would not know what to do with the proceeds, and as the property is improving in value more profit is anticipated in the holding than in the sale. This keeps a good deal of low priced ground on the market, and this is a strong tendency to increase the price of home sites generally for sale at \$20 a foot and under, for which there is an active demand at all times. A tendency to higher prices is holding its own very well considering the present season of the year, when it generally goes of a few points under spring prices when forced to a sale. With improved and growing residential property seasons do not exert so much influence upon values, as capital is invariably ready to purchase such premises at any time upon the basis of the income that they produce, regardless of the contingencies which effect the prospective value of such property.

**OTHER SALES.**  
The two-story flat fronting on the west side of Garrison avenue and on the south side of North Market, owned by the firm of Nelson & Merzmann, have been sold to the firm of \$50,000 to Hudson B. Pogue. Messrs. Nelson & Merzmann say the premises are renting for \$5,000 a year. The apartments are all new and in first-class condition. This property covers an area of 10,000 feet at the south west corner of the street named.

The committee bossism fight seems to need a blow or two more to be brought to a finish.

The interest in scientific investigation into consumption is centered for the present in this city upon that of smoke consumption.

The success of the home rule cause is not dependent upon the personal character of any one man; it has passed beyond the one man stage.

The Irish home-rulers still have a tower of strength in GLADSTONE, who is recognized as the real leader, to whom the growth of the cause in England is chiefly due.

The situation in the Democratic committee of the Ninth Congressional District indicates that the lesson of the Eighth District was not severe enough for the administration bosses.

DR. BLAINE thinks he has discovered a reciprocity lymph which, if properly injected into the present tariff, will arrest the ravages of the McKinley bacillus and probably save the life of the Republican party.

ALTHOUGH the financial crisis was confined largely to speculative centers a collapse would have affected all branches of business to some extent. The signs of a clearing sky on Wall street are, therefore, welcome.

THE McKinley duty of 55 per cent on fur hats and 60 per cent on silk has not prevented the eighteen hat factories of Danbury, Conn., from looking out over 500 hats and 2,000 girls employed in their trimming departments.

ENOUGH has been revealed concerning the inside history of the Emin Relief Expedition to make it imperative that all should be revealed. There is no kindness to either living or dead members of it in further concealment of any part of the truth.

THE amount Secretary WINDOM borrowed from the bank note redemption fund to save the Treasury from being bankrupted by the appropriations of the present Congress, was about the same as the guarantee fund raised to tide the BARINGS over.

HAVING seen Jefferson Barracks and investigated the advantages of the location for a regimental post, Secretary PROCTOR must endorse Gen. MERRITT's recommendation. The reasons in favor of the improvement of the Barracks need no demonstration.

THE platform on which the Democrats carried Indiana by 20,000 majority pledged the party to favor the election of United States Senators by the people, and the next Legislature of that State will adopt a concurrent resolution requesting her Congressmen to work for the requisite amendment to the Federal Constitution.

TEN of the agricultural districts of Illinois, which the Republicans carried two years ago by majorities aggregating 44,000, yielded them an aggregate majority of only 4,711 this time. Five of these districts elect Democratic Congressmen now and the Chicago Tribune estimates that not less than 15,000 Republicans voted for the Democratic candidates.

ELECTRICAL SUPERVISOR O'REILLY says that in the multiplication of overhead wires it is impossible to guard against all danger of accidents from this source in wet weather. This announcement will

intensify the gloom of clouded skies, but it should also stimulate the energies of the city officials to provide a remedy for the rapidly increasing menace to life and property of the deadly wires.

**DR. KOCH'S DISCOVERY.**  
Perhaps no discovery in science, of modern times at least, has created greater interest than that which Dr. Koch of Berlin claims to have made in regard to the nature and proper method of treating tuberculosis, the most dreaded form of which is consumption.

The medical fraternity, and scientific men in general, are looking eagerly for more light on the subject, while hope is revived in the breasts of a vast army of human sufferers who have been without hope. To scientific men the important point is the alleged discovery of a successful method of treating the disease upon the theory that it is bacterial in character, and the mass of men and women hold the promise of relief as an inestimable blessing.

Dr. KOCH does not claim to be able to cure every case of tuberculosis, but merely that he has discovered a lymph which proved efficacious in some cases. The cautiousness with which he puts forward the results of his experiments and his frank avowal that further experiments are necessary to discover the true value of his discovery inspire confidence in his claims. Attention will be fixed upon Dr. KOCH and his enthusiastic associates until final success or failure ends their investigations.

**A BOLD DEFIANCE.**  
Mr. GOULD's movement to McKinley the tariffs of the railways west of Chicago and St. Louis by means of a renewal of the "Presidents' agreement," which lasted such a short time after its adoption some eighteen months ago, is attended with some very bold demonstrations, considering the formidable growth of the Farmers' Alliance vote and of the general opposition to tariff raising in the recent election returns.

Mr. GOULD, in a letter to a New York paper, figures out that the "Presidents' agreement," if it had been kept, would have made for 100,000 owners of watered stocks \$22,400,000 more of income, and made the rest of the American people, Western producers particularly, that much poorer by this time. How much of this increase would have gone to swell Mr. GOULD's income, how much to the coffers of a few other big stock manipulators, and how little to the pockets of the rest of the 100,000, who innocently bought at second-hand and paid for small blocks of the watered stock, he does not say; nor does he attempt to show what right they had to collect \$22,400,000 more for the railroad service rendered west of St. Louis and Chicago. He thinks only of the practical ways and means of getting the money.

In this connection it is announced that the present management of the Union Pacific was the chief obstacle to his plan of forming a great tariff-raising combination for the benefit of watered stocks, and that his purchase of Union Pacific securities during the recent depression will enable him to reinstate the old Sidney Dillon Credit Mobilier-Gould management.

Now the net earnings of the Union Pacific in the last seven years, according to "Poor's Manual," foot up a total of \$74,426,400. Its own report for the year ending last June shows net earnings amounting to \$9,521,963. It has been buying and building branches at a rapid rate, and paying dividends on over \$60,000,000 of stock which is 98 per cent pure water. Its ability to do all this at out rates seems to be a conclusive argument against the justice of the higher tariff which it is to uphold under the reinstated Gould management.

The history of that management is not forgotten, and it is a little bold in Mr. GOULD at this particular time to threaten the country with a repetition of it on a magnified scale, in connection with a great combination for railway tariff raising throughout the West. If the Western farmers should all get mad and join the Alliance, the foreclosure of the Government's Pacific Railroad mortgages is not the only measure that might be adopted to unload the water with which the transportation of Western commerce is now so heavily burdened.

A REMARKABLE evidence of the tendency of modern thought toward the solution of social problems is found in the widespread interest aroused by the scheme of Gen. BOOTH for the relief of the poor of London through colonization. The encouragement and substantial aid extended to the author of the project by all classes from royalty down in England makes the proposition to raise an enormous sum for the experiment, which seemed at first chimerical, a bright probability.

WHETHER an agreement among railroad managers to fix rates and limit extension of lines would be beneficial to the country depends in large measure upon the nature of the agreement and the manner in which it may be carried out. An agreement which would result in maintaining reasonable rates would be as beneficial as an agreement to keep rates at a high point and out off all competition would be hurtful to commerce.

Mr. F. L. Marshall, representing the Post-Dispatch on "Chambers," was on the floor during business hours and will call on merchants who desire to make use of the Post-Dispatch market reports. Advice please.

## WHAT WILL HE DO?

**Conflicting Rumors as to the Irish Leader's Plans for the Future.**

**The "Freeman's Journal" States That Parnell Will Not Abandon His Position.**

**A Hard Sub at the "Piggott's" Press—The Attention of Hostile Critics Called to the Private Lives of Wellington, Nelson and Palmerston—No Change of Leaders Wanted by the Nationalists—A Report That Parnell is Going to Marry Mrs. O'Shea—Press Comments—A Reaction in Public Sentiment—Why O'Shea is Antagonistic to the Irish Leaders.**

DUBLIN, Nov. 18.—The editor of the *Freeman's Journal* has this morning stated that he has direct authority for stating that Mr. Parnell has not the remotest intention of abandoning, either permanently or temporarily, his position or his duties as leader of the Irish Parliamentary party. This may be regarded as a bold defiance to the hostile critics of the Parnell press, and perhaps by learning it in time the Parnell press may be spared the humiliation of indulging in a prolonged outburst of useless vilification. In arriving at this determination I need not say that Mr. Parnell is not a man who is easily swayed from his responsibility to the Irish people, by whose suffrage he holds his public position and who alone have the power or the right to influence his public action. The wild, unscrupulous and insincere shrieking of the Parnell press on the platform and in the press can and will do nothing to alter Mr. Parnell's resolve.

**ABUSED GABRIEL.**  
The *Freeman's Journal* also calls the attention of hostile critics to the record of the private lives of Wellington, Nelson, Palmerston and others famous in British history and declares the gabbles about social ostracism to be absurd. Mr. Parnell was not a man, the *Journal* says, who went to society, to banquets, to parties, to dinners, while the pastors are charged with the moral well-being of the Irish leader, it is no more than their duty with the majority of the Irish leaders or the province of the *Journal*. Ireland's business with Mr. Parnell is purely political. He has ably, faithfully and successfully served his country and brought her out of darkness and bondage to within sight of the promised land. A function has been reached when there can be no swerving or changing of leaders. The Nationalists would not do so if they could, and could not if they would. It would be, the *Journal* continues, the duty of the Irish, not of the English people, to decide if the years of toil in behalf of Ireland shall be lost or the fruit of that toil risked because a man had been weak and a woman frail. The article concludes by pronouncing the necessity for Parnell's continued leadership of the Irish party, both in and out of Parliament, to be the only sound policy, and that he should be proclaimed at the League meeting to-day and at the public meeting on Thursday.

**OTHER OPINIONS.**  
The *Dublin Express* thinks it would be the best wisdom for Mr. Parnell to retire from political leadership, but it hardly expects him to manifest so much self-respect. The *Evening News* says the "uncrowned king" has been crowned with infamy. The *Ster* (T. F. O'Connor's paper) says that the home rule cause is a political game between nations, not between persons and will stand.

**WILL REMOVE PARNELL'S NAME.**  
EDINBURGH, Nov. 18.—In the town council notice has been given of a motion to remove the name of Charles Stewart Parnell from the burgess roll.

**A LONDON RUMOR.**  
LONDON, Nov. 18.—It is rumored here that Mr. Parnell has definitely decided to retire from the leadership of the Irish party, and that as soon as the law of divorce is passed he will be married to the divorced wife of Capt. O'Shea. If Mr. Parnell abandons the leadership it is understood that his successor will enjoy the benefit of his continuous advice.

In the meantime it is undeniable that the executive violence of the Tory editors is causing a reaction in public sentiment with regard to Mr. Parnell in connection with recent events. The *Pail Mail Gazette* says it is Parnell's duty to the Irish people, their English allies, his own character and his cause to resign his leadership. Many of the Irish bishops and their English allies are likely to hold the opinion that Parnell has betrayed the Irish cause by dragging his own reputation in the mire. It would be better for the Unionists, the *Gazette* says, to have Parnell resign and let the Home Rule party with the dirty brush with which he has besmeared himself than to have him resign. A wise and honorable man would temporarily retire and would repair by marriage the false position in which he has put his partner in his office.

**PARNELL TO MARRY MRS. O'SHEA.**  
LONDON, Nov. 18.—The latest report in the O'Shea matter is that Parnell is to marry Mrs. O'Shea as soon as she is free from her husband. Owing to the slow progress of the divorce system here this marriage cannot take place for seven months. Gen. Sir Evelyn Wood, a near relative of Mrs. O'Shea, though not on good terms with her, says that this marriage is the only step that Parnell, as a man of honor, could take to bring the public to condone his misconduct in the O'Shea matter.

**PARNELL AND O'SHEA.**  
Why the Captain is Antagonistic to the Irish Leader.  
Capt. O'Shea is the only son of a well-known Dublin lawyer and is now exactly 30 years old. He is a man of excellent education. The first wife he attended was the well-known Catholic one of O'Connell, near Birmingham, England, after leaving which he was sent to Trinity College, in his native city. He was an officer in the Eighteenth Hussars, retired from the service in 1867, when he married Miss Katherine Wood, daughter of the late Sir George Wood, Bart., of Exeter, Devon, and sister of Gen. Sir Evelyn Wood. He and Parnell became acquainted about 1870, when, of course, he introduced him to his wife, a beautiful, clever and capable woman, who was a widow of a Colonel Wood, who was a friend of Parnell's. Parnell was a very comfortable fortune, which he inherited from his father. A year ago he inherited a fortune in his own right amounting to nearly \$100,000.

Parnell and O'Shea became, to all appearance, very fast friends. O'Shea represented O'Shea in Parliament when Parnell was imprisoned in Kilmatin and his visits to the jail were constant. O'Shea was then in power and it is now said that O'Shea was the agent of the Ministry, who saw the blunder they were committing in keeping the Irish leader under arrest and were anxious to extricate him from the situation. O'Shea was then in power and it is now said that O'Shea was the agent of the Ministry, who saw the blunder they were committing in keeping the Irish leader under arrest and were anxious to extricate him from the situation.

## NOT PLEDGED TO PALMER.

**Lindley After the Nomination—A Democrat Replaces a Republican in the Lower House—McCrone's Seat to Be Contested—Sanguine Springs—Amendments Adopted—New Corporations—An Important Decision—Illinois Items.**

SPRINGFIELD, Ill., Nov. 18.—Dr. H. H. Moore of Wayne County, one of the three former members of the Legislature, said yesterday that he was not pledged to vote for Senator Palmer for the United States Senate. Speaking of his own rumored candidacy Dr. Moore said he would not refuse the nomination, but that he was not working for it. Ex-Senator W. E. Wilson of Crawford County is feared that the three former legislators will not support Palmer. In event of a break from Palmer he favored Judge Lindley. C. C. ## THE NEW HIGH SCHOOL

**A SCHEME BY WHICH IT CAN BE BUILT AT ONCE.**

**Practical Miller Suggests a New Scheme—He Would Have a Central School With a Northern and Southern Branch—How the Plans Can Be Carried Out—The Lee Committee's Report.**

The plan suggested in the *SUNDAY POST-Dispatch* for raising the money to build the new high school has received interest in the project, and provoked again the discussion of the advisability of putting a Central High School out on Grand avenue. The scheme suggested was practical and business-like. The building of a new High School will read the old one and other buildings as well as the new one. The plan is simply to sell them and apply the money to the new school. The board made an appropriation of \$80,000 for the Polytechnic, but the building has been sold and the money belongs to the building fund and will be used for the building of a new school. The plan is simply to sell them and apply the money to the new school.

**Both Measures Adopted.**  
SPRINGFIELD, Ill., Nov. 18.—The amendment to enable Cook County to incur indebtedness in aid of the World's Fair is undoubtedly adopted. The footings at the Secretary of State's office show a total, with Cook and Oglethorpe Counties missing, of \$60,818,800. The vote for the amendment of the banking acts is also carried, the footing showing \$41,530 votes.

**A Seat to Be Contested.**  
QUINCY, Ill., Nov. 18.—George C. McCrone, a Republican elected to the legislature, was for five years before his election a resident of Kansas. It is claimed that while there he was a Notary Public, and so became a citizen of Kansas, and was not at the time of his election a resident of Illinois. His seat will be contested.

**Arrested for Forgery.**  
MARSHALL, Ill., Nov. 18.—William Yealick, charged with forgery, was lodged in jail yesterday after a four months' absence. He was arrested last August, but escaped from the constable and roamed about for four months until recaptured in Rock Island, Ill.

**A Democrat Replaces a Republican.**

## THE NEW HIGH SCHOOL

**A SCHEME BY WHICH IT CAN BE BUILT AT ONCE.**

**Practical Miller Suggests a New Scheme—He Would Have a Central School With a Northern and Southern Branch—How the Plans Can Be Carried Out—The Lee Committee's Report.**

The plan suggested in the *SUNDAY POST-Dispatch* for raising the money to build the new high school has received interest in the project, and provoked again the discussion of the advisability of putting a Central High School out on Grand avenue. The scheme suggested was practical and business-like. The building of a new High School will read the old one and other buildings as well as the new one. The plan is simply to sell them and apply the money to the new school. The board made an appropriation of \$80,000 for the Polytechnic, but the building has been sold and the money belongs to the building fund and will be used for the building of a new school. The plan is simply to sell them and apply the money to the new school.

**Both Measures Adopted.**  
SPRINGFIELD, Ill., Nov. 18.—The amendment to enable Cook County to incur indebtedness in aid of the World's Fair is undoubtedly adopted. The footings at the Secretary of State's office show a total, with Cook and Oglethorpe Counties missing, of \$60,818,800. The vote for the amendment of the banking acts is also carried, the footing showing \$41,530 votes.

**A Seat to Be Contested.**  
QUINCY, Ill., Nov. 18.—George C. McCrone, a Republican elected to the legislature, was for five years before his election a resident of Kansas. It is claimed that while there he was a Notary Public, and so became a citizen of Kansas, and was not at the time of his election a resident of Illinois. His seat will be contested.
